

Warmflow has been established as a privately owned business since 1970 manufacturing a range of heating and ventilation products and during this time we have gained a reputation for high quality, competitively priced products. Based in Lisburn with a distribution centre in Telford, our 100,000 sq ft production facility boasts state of the art technologies including CNC high definition plasma cutting, robotic welding and panel folding technology supported by the latest CAD, CAM and sheet metal software. As part of our philosophy of sustainable growth and innovation Warmflow focusses on meeting our social and ecological responsibilities ensuring that we continue to deliver the products that the market demands, both now and in the future.

#### JOB PURPOSE

Routine service of boiler/heating systems with additional duties such as commissioning and breakdowns as required throughout NI. Normal hours of work will be 37.5 hours per week Monday to Friday, with additional, regular weekend working on rotation also required. May be required to work in excess of 37.5 hours per week where circumstances result in an unforeseen increase in demand of the Company's services.

#### JOB TYPE/SALARY

Full-time permanent contract. Salary negotiable – commensurate with experience; Company van provided.

#### EDUCATION, QUALIFICATIONS AND EXPERIENCE

It is essential that the successful candidate must have:

- A boiler servicing background with a logical systematic approach to fault finding of oil fired appliances and central heating system controls.
- Extensive knowledge of oil-fired heating appliances is an essential requirement.
- Must have full, clean driving license.

In addition it would be advantageous if the candidate had:

- Plumbing knowledge and skills.
- A valid OFTEC (oil firing technical association) certificate.
- CSR card preferable.

#### PERSONAL QUALITIES

- Excellent interpersonal skills with ability to engage effectively at all levels
- Enthusiastic and ambitious with a proactive approach.
- Prepared to be flexible in their approach to all aspects of the business.
- Be capable of producing results with a strong attention to detail and a 'can-do' attitude.
